

CERTIFICATION STANDARDS & CORE PLUS DEVELOPMENT GUIDE

ENGINEERING LEVEL II

Type of Assignment	Representative Activities
Functional Engineer	<ul style="list-style-type: none"> Organizes, analyzes, conducts, and/or monitors/oversees engineering activities in a functional specialty relating to the design, development, fabrication, installation, modification, sustainment, and/or analysis of systems or systems components. Applies systems engineering technical and technical management processes to a functional specialty in IPT environments.
General Engineer	<ul style="list-style-type: none"> Organizes, conducts, and/or monitors/oversees engineering design and development activities for systems or systems component. Applies systems engineering technical and technical management processes during systems development.
Research Engineer or Scientist	<ul style="list-style-type: none"> Organizes, conducts, and/or monitors science and technology research and engineering activities supporting acquisition programs, projects, or activities. Applies systems engineering technical and technical management processes to managing or conducting science and technology research and engineering activities.

Core Certification Standards (required for DAWIA certification)

Acquisition Training	<ul style="list-style-type: none"> ACQ 202 Intermediate Systems Acquisition, Part A ACQ 203 Intermediate Systems Acquisition, Part B (R)
Functional Training	<ul style="list-style-type: none"> LOG 103 Reliability, Availability, and Maintainability (RAM) SYS 202 Intermediate Systems Planning, Research, Development, and Engineering, Part I ENG 202 Applied Systems Engineering in Defense Acquisition, Part II (R) CLE 003 Technical Reviews
Education	Baccalaureate or graduate degree in a technical or scientific field such as engineering, physics, chemistry, biology, mathematics, operations research, engineering management, or computer science
Experience	<ul style="list-style-type: none"> Two years of technical experience in an acquisition position with: <ul style="list-style-type: none"> - At least 1 year in a ENG or S&TM position - Remainder may come from IT, T&E, PQM, PM, or LCL Similar experience gained from other government positions or industry is acceptable as long as it meets the above standard.

PQM 201A Intermediate Production, Quality, and Manufacturing, Part A	✓	✓	
STM 202 Intermediate S&T Management (R)			✓
TST 204 Intermediate Test and Evaluation (R)	✓	✓	✓
Education			
Graduate degree in a discipline such as engineering, physics, chemistry, biology, mathematics, operations research, engineering management, or computer science			
Experience			
Two (2) years of technical experience (in addition to core certification experience)			

Notes:

1 The Core Certification/Training Standards section lists the training and/or education and experience REQUIRED for certification at this level or training for this career path.

2 "(R)" following a course title indicates the course is delivered as resident-based instruction.

5 When preparing your IDP, you and your supervisor should consider the training, education, and experience listed in the Core Plus Development Guide at this and the lower level(s) if not already completed.

13 Some continuous learning (CL) modules have been created by extracting lessons in their entirety from a training course. If this is the case for the CL module(s) identified in the above Core Certification Standards, the course from which the CL module was extracted is identified in the "Notes" section of the CL course description and the course can be substituted to meet the certification standard.
